

Production Operator

We are hiring a Production Operator to join our team! You will operate machinery and equipment, as well as identify areas of improvement to increase efficiency.

Description:

- Produces the required quantity of parts within established specifications and tolerances.
- Measures finished parts with precision tools, ensuring compliance with function, quality, and cosmetic specifications.
- Inspects equipment prior to use to ensure proper setup and alignment; performs basic and routine adjustments and maintenance.
- Maintains a clean, safe, and orderly work area.
- Performs other related duties as assigned.

Required Skills/Abilities:

- Ability to follow directions and work well in a team.
- Ability to quickly learn production equipment.
- Understanding of and the ability to abide by applicable OSHA and environmental regulations.

Experience:

High school diploma or equivalent preferred, but not required.

- No experience required
- Completion of on-the-job training may be substituted for educational requirements.

Physical Requirements:

- Prolonged periods working on feet, using tools, and performing repetitive actions that entail frequent bending and stooping.
- Must be able to lift to 50 pounds at a time.
- Visual acuity to read instructions, inspect and count parts produced.
